SUMMARY

Certified Salesforce Developer with 4 years of experience in Salesforce development and customization. Proficient in LWC, Apex, Async Apex, Flows, Triggers, SOQL, Aura, and integrations. Adept at translating complex business requirements into scalable, functional solutions. Experienced across multiple Salesforce Clouds, including Sales, Experience, and Education, with a proven track record of delivering high-quality solutions in dynamic environments.

EXPERIENCE

Infosys Limited | Indore

Associate Consultant | Jan 2025 - Present

- Working on Salesforce Education Cloud implementation, tailoring solutions for higher education use cases.
- Developed multiple custom Lightning Web Components (LWCs) for student and faculty-facing features.
- Built advanced Salesforce Flows to automate admissions, enrollment, and academic lifecycle processes.
- Leveraged Copado for deployment.
- Ensured best practices in Apex, LWC, and Flow development, focusing on performance and maintainability.

Salesforce India | Hyderabad

Technical Support Engineer | Aug 2024 - Dec 2024

- Acted as the primary technical contact for enterprise customers, resolving high-priority platform issues.
- Investigated and reproduced customer-reported problems involving Apex, LWC, Flows, and integrations.
- Provided actionable recommendations to optimize performance, improve maintainability, and prevent recurrence.
- Delivered step-by-step technical guidance to reduce case resolution time and improve customer satisfaction.

Mind Ruby Technologies | Indore

Software Engineer | Nov 2021 - Jul 2024

- Contributed to the development of a community site utilizing Lightning Web Runtime, incorporating Lightning Web Components, Apex, and integration with external systems.
- Integrated the Smarty API service into Salesforce for automated address completion and geocode information gathering.
- Automated email processes using scheduled batch Apex and merge field email templates, resulting in a 60% reduction in manual effort.
- Reduced the complexity of Apex triggers, resulting in a 20% reduction in overall processing time.
- Worked with a cross-functional team to create consistent, reusable, and maintainable code.
